PROFESSIONAL SUMMARY

Computer Science and Engineering student focused on developing responsive, user-friendly web applications with JavaScript and modern React-based technologies. Familiar with frontend development, REST API integration, server-side development, databases, authentication, and Git-based workflows. Also brings practical digital marketing experience, supporting a user-focused approach to product design and online engagement.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React, Next.js, Tailwind CSS, DaisyUI
Backend & APIs	Node.js, Express.js, REST APIs, JSON, API integration
Database & Auth	MongoDB, Better Auth, NextAuth (integration/practice)
Tools	Git, GitHub, VS Code, npm, Figma, Vercel
Additional	SEO, Facebook Ads, Google Ads, lead generation, social media management, AI content creation

SELECTED PROJECTS

FitLog — Workout Tracking Web App

- Developed a responsive workout browsing and detail experience with Next.js and Tailwind CSS, integrating workout API data and reusable UI components.

Bangla News 24 — Bengali News Website

- Built news interface features with Next.js, including category navigation, news cards, article pages, external API integration, and authentication workflows.

Calculate Your CGPA — Academic Calculator

- Worked on a student-focused CGPA calculator using Next.js, React, TypeScript, and Tailwind CSS to simplify grade calculations.

React & JavaScript Practice Projects

- Created interactive learning projects using React, Tailwind CSS, DaisyUI, JavaScript array methods, and JSON-based data.

EXPERIENCE

Digital Marketing — Hands-on Experience

- Managed three Facebook business pages and executed paid advertising campaigns.
- Worked with audience targeting, budget optimization, A/B testing, and campaign performance analysis.
- Created AI-assisted content and supported lead generation and social media engagement.

EDUCATION

B.Sc. in Computer Science and Engineering — Eastern University

May 2024 – Present
